NC Cancer Prevention and Control

Branch 919-707-5300

<http://publichealth.nc.gov/chronicdiseaseandinjury/>

[cancerpreventionandcontrol/index.htm](http://publichealth.nc.gov/cancerpreventionandcontrol/index.htm) The purpose of the Cancer Prevention and Control Branch is to reduce the overall cancer burden in North Carolina. This is accomplished by:

- Reducing the number of people who get and die from breast and cervical cancers and cardiovascular disease by providing testing and follow-up services for uninsured and underinsured women in North Carolina;
- Planning, directing, and supporting cancer prevention and control efforts through collaborative work with partners in local, state, and national organizations, and universities;
- Identifying opportunities to promote healthy behaviors related to eating, exercising, not using tobacco products, and safe environments; and
- Recommending health education activities for everyone.
